I'm an experienced Software Engineer with over 9 years of expertise in the industry. My extensive background spans web, software, game, and mobile development covering both back-end and front-end. Through collaboration with diverse teams in my previous organizations, I have cultivated expertise in an array of programming languages, such as PHP, HTML, CSS, JavaScript, C# (Unity), JAVA (Android Studio), and Unreal Engine (Visual Scripting and C++). My proficiency extends beyond technical aspects to effective communication and collaborative goal achievement.

EXPERIENCE

NOVEMBER 2022 – OCTOBER 2023
APPLICATION DEVELOPER SENIOR ANALYST, ACCENTURE

As a Level 10 developer, I actively engage in diverse projects spanning various industries, including logistics, casino, and entertainment. My role involves enhancing existing applications and APIs by implementing robust features using cutting-edge technologies such as React Native, Node.JS, PHP, and AWS. In addition to contributing to the development phase, I play a pivotal role in system maintenance and conduct routine debugging activities to ensure optimal performance and reliability.

APRIL 2021 – NOV - 2022
SENIOR DEV OPS ENGINEER, ASTICOM TECHNOLOGIES INC

- Redesigned their websites (asticom.com.ph, absi.ph, brad.ph, finsi.com.ph) using WordPress/Html, Css, Javascript (mostly customize designs)
- Created the CMS Dashboard for Viber Bot and engaged enhancements
- Managed and created JIRA Service Management Projects
- Created the Asticom Group of Companies Portal
- Team management of Junior Devs
- AWS (Lambda, API Management, EC2 Server Setup)
